GUS Graduation Application: Student Instructions

Overview

Every degree or certificate-seeking UAMS student is required to submit a graduation application for the semester in which he/she intends to graduate. The graduation application serves as a notification to university and college administrators of your intent to graduate and will initiate the process of reviewing your record for the completion or anticipated completion of all degree requirements. Once you have submitted the graduation application, you will begin to receive important emails and information regarding graduation from you college and student services offices like the Office of Financial Aid, the Bursar's Office, and the Office of the University Registrar. You may also start receiving information regarding Commencement activities.
